

**'Primary Education Activities'** is a computer program that has a range of educational activities which help children understand the various subjects they learn at school.

'Primary Education Activities' introduces 70 pre-writing activities to assist the child in writing characters. You can encourage the child to practice a few pre-writing activities a day, using any writing medium (Stylus & Slate, Pencil, Pen, Copy papers, Notebooks etc.), while the activity is being operated on the computer screen. Encouraging the child to practice these pre-writing skills as much as possible, will provide him/her with a solid footing to write characters of any given alphabet. Letting children to practice pre-writing exercises like this will definitely help them to have correct and proper handwriting in their higher classes.
